BLAIRMORE ALBERTA

J. T. Henlinger, of the Crystal Dairy, is driving a herd of one thousand sheep to Blairmore from Cardston this week.

The miners' union of the City of Lethbridge has had a tag day for the purpose of raising \$1000 for the Hillcrest relief fund.

Japanese Scribe Traveling The Dominion

On Wednesday afternoon we had a visit from J. Miya Gawa, a Japanese newspaper man, who is crossing the Dominion on foot from Vancouver to Toronto in the interest of a publication to be issued by him on the Dominion.

Mr. Gawa is of Japanese birth and a very interesting personality. He speaks the English language fluently, being a graduate in English from a Japanese college. Before coming over to Victoria in 1907 he was a member of the staff of the Nagasaki Press, published in Nagasaki, and also worked on other prominent Japanese journals.

His present undertaking was started from Victoria on March 25th, with intention to travel the distance between the Pacific Coast and Toronto, as far as practicable, on foot. The main object of the cruise is to make close observations of the country, studying the natural resources, collecting views, etc., so as to be enabled to write articles on his return to his native country.

On reaching Toronto an English paper will be published from his diary, which will be of great interest.

From Toronto he will proceed to New York, where a book will be written and printed in English and Japanese languages. The proposed book will be of considerable size and be profuse with half-tone illustrations of the natural scenery and industrial life of the Dominion.

He has not yet decided as to how he will make return to the Pacific slope, but in all probability will travel back through the States.

Mr. Gawa takes particular interest in wild shrubs, trees and floriculture, and is in a position to compare them with those of Japan. For a number of years prior to his coming over to Canada he studied floriculture and conducted nurseries.

The distance between Victoria and Blairmore occupied 104 days, most of which time was spent at points of particular interest. He expressed himself as very much taken up with the mountainous scenery of the Cow's Nest Pass, and expected to lay off somewhere in the Foothills for a couple of days to busy himself with the camera.

Coleman Lodge Officers Installed

The officers of Coleman lodge, of the Independent Order of Oddfellow were installed on Monday night by District Deputy R. C. Green, of Blairmore, assisted by Past Grand Doubt, McPhail, Hunter, Montalbetti and Bartlett. The new officers are:

Noble Grand, William Autobius.

Vice Grand, S. Slingby.
Recording Secretary, W. S. Macmillan.

Financial Secretary, William Burns.

Treasurer, David Reid.
Warden, I. G. James.

Conductor, G. Greenough.

Outside Guardian, William Jenkins.

Inside Guardian, Jack Fairhurst.

R.S.N.G., Charles Dunlop.

L.S.N.G., Sam Hatfield.

R.S.V.G., John Hatfield.

L.S.V.G., (to fill).

R.S.S. M. Stitt.

L.S.S., Wm. Hogan.

Bertram Paul McEwan, the Cole- man jeweler, is now empowered to issue marriage licenses.

Blairmore School Report

Report of the Blairmore public school for the month of June:

School was in operation 21 days; total attendance 4,469; pupils enrolled 229; average attendance 39.5.

Grade I. Junior, Miss L. Murdoch, teacher.—Number enrolled 39, average attendance 35.64, aggregate attendance 726, percentage of attendance 89.84, late 25.

Perfect in attendance and punctuality: John Parsons, Milda Bond, Robert Thompson, Bertha Doubt, Annie Doubt, Jean Gow, Honor Bell — "A" class;

Arthur Decour, Ambrogio Powan, Marianne Gale, Adolph Larke; "B" class: Francis Andel, Howard Gay; "C" class: Milda Bond, Celia Handley, Bertha Doubt, Rachel Malino; "D" class: Edith Maynor, Robert Thompson, Henry Stewart.

Grade I. Intermediate, Miss M. E. Moir, teacher.—Number enrolled 34, aggregate days' attendance 96.9, average attendance 31.85, percentage of attendance 93.67, late 7. Those neither late nor absent: Maurice Bond, Lindsay Carter, Charlie Garrett, Ruth Gay, Tom Ken, Mar Kim, Frank McLeod, George Maniquet, Willie Niranra, Roland Pinkney, George Shearer, Hazel Sawyer, Beatrice Turner, Albert Tibblebaum, Ted Nichola.

Grades I. and II., Miss C. L. Williams, teacher.—Xumber enrolled 37, aggregate days' attendance 706.5, average attendance 38.97, percentage of attendance 90.82, late 3. Double neither late nor absent: Duncan Baird, Jessie Brunetto, Vernon Hunter, Miss James, George Kafoury, Lena Lunetti, Cassie Lyon, Alpert Manenzi, Angelina Morino, William Morgan, Mildred Passmore, Henrietta Robbins, Janette Tibblebaum, Allan Turner, Flora Warner, Violet Warner, Donna McDonald.

Grades III. and Junior IV., Miss L. M. Perkins, teacher.—Number enrolled 42, aggregate attendance 797.5, average attendance 38.87, percentage of attendance 92.78, late 6.

Grades IV. and V., Miss K. R. Darach, teacher.—Number enrolled 37, aggregate days' attendance 735, average attendance 35.88, percentage of attendance 96.91, late 4.

Grades VI. and VII., Miss E. M. Fulton, teacher.—Number enrolled 22, aggregate days' attendance 453.6, average attendance 21.69, percentage of attendance 98.13.

Grades VIII., IX., X. and XI.—None

ber enrolled 18, total attendances 338.3, average attendance 18.83, percentage of attendance 93.5, late 4.

In another column will be found lists of pupils who have been promoted this term. There will, we expect, be disappointment for some students whose names do not appear. To those we would say "Do not despair; you will soon get another chance."

We also elicit the sympathy of parents in this matter of promotion. It is inevitable, of course, that the promotion of some pupils will be delayed. It is essential to the successful work of the school that pupils be thoroughly grounded in the work of one grade before being advanced to the next. This is especially true in the higher grades, from Grade V. up. The teachers take no pleasure in regarding the promotion of any pupil and only do it where necessary.

J. W. VERGE, Principal.

Officers of Blairmore Lodge Installed

The officers of Blairmore Lodge, of the Independent Order of Oddfellow were installed on Monday night by District Deputy R. C. Green.

The officers are:

Past Grand—L. C. Gale.

Noble Grand—A. Morency.

Vice Grand—H. G. Bigelow.

Recording Secretary—W. Robert.

Financial Secretary—J. F. Hunter.

Treasurer—H. E. Lyon.

Chaplain—W. J. Bartlett.

Warden—Albert Olsen.

Conductor—B. C. Green.

R.S.S.—C. H. McLeod.

L.S.S.—J. McPhail.

R.S.N.G.—F. W. Doubt.

L.S.N.G.—Chas. Hewitt.

R.S.V.G.—H. G. Benoit.

L.S.V.G.—W. H. Hilton.

Outside Guardian—J. Montalbetti.

Inside Guardian—W. Williss.

Forty-one Chinamen were arrested in Calgary on Tuesday, charged with gambling. In order to effect the arrest, the police were obliged to smash through the walls of an adjoining store and then through triple barred doors. \$870.65 in cash, together with poker chips and opium were confiscated.

Sound Financial Advice

To Urban Municipalities

Sound advice to urban municipalities on matters of finance is contained in the annual report shortly to be issued by the provincial department of municipal affairs, of which Hon. W. G. Gariepy is head. "The danger which our municipalities must guard against," the report reads, "is that of incurring liabilities before the future of the municipality is firmly established. If large indebtedness is incurred and the expected growth does not follow, the town is likely to lose growth which otherwise it might have had."

A preamble to the report states that the year 1913 was one of great progress and development in municipal affairs.

Fifty-five rural municipalities

which were organized in 1912,

carried on business for the first time in 1913, and the progress made was satisfactory. The good results that have followed are rated to be remarkable in view of the fact that the areas included in the boundaries of these municipalities had not before been grouped together, and that many of the ratepayers were strangers to each other and to British forms of government.

A section devoted to taxation states

that all rural municipalities, villages

and towns, with the exception of Stettler and Cardston, follow the provisions

of the act requiring taxes to be levied on land values only. Stettler

was given special privileges on account of unusual conditions, and

Cardston is still operating under a northwest territories act.

We also elicit the sympathy of parents

in this matter of promotion. It is inevitable, of course, that the promotion of some pupils will be delayed. It is essential to the successful work of the school that pupils be thoroughly grounded in the work of one grade before being advanced to the next. This is especially true in the higher grades, from Grade V. up. The teachers take no pleasure in regarding the promotion of any pupil and only do it where necessary.

BLAIRMORE, ALBERTA

Must Pay \$340,000

In Insurance

A Hillcrest, Alberta, dispatch states that the Hillcrest Collieries, Limited, will have to pay \$1,800 to the families of each of the 182 miners who were killed in the recent explosion, a total of \$340,200. They are compelled to do this under an insurance clause of the workers' compensation act. The miners were insured by the company, at no expense to themselves as the act calls for. While this will naturally be a heavy drain on the finances of the company, it will not retard it in its development work. The company has strong financial backing.—B. C. Federationist.

W. C. Robinson and James H. Hughes, of Cowley, have been appointed game guardians.

William Gallimore, who was among the victims of the Hillcrest explosion, leaves a wife and five children. He was at one time leader of the Salvation Army band at Lethbridge.

The Gasoline Engine

There is nothing on the farm that
will pay for fuel and power than
the gasoline engine, and save so
much time. Why should a man de-
vote so much valuable time to the
driving of a team separate from
as well as using horses over on the
corn sheller, wood saw and feed
grinder. Even the good wife will
appreciate the use of the engine on
water day.

One great fault with the engine on
the farm, the owner is apt to put too
much with an engine, or allow too
much to be tolerated. Carefully fol-
low directions and good results will fol-
low. A gasoline engine will become
some trouble to the owner, which may
be avoided somewhat by using a
torch to warm up the intake pipe,

etc. A careful observer will always see
that if the cylinder always has plenty of oil, it does not become dry.
Or that the air cleaner is cleaned
and the oil changed every day.

One great trouble is in trying to
run an engine on weak batteries.

Strong fresh batteries, and clean
make motor will do wonders in holding
onto your religious faith and pa-
lence.

At times when my engine did not
work I have simply stopped another
at work, and when another did not
work it was a willing worker. How-
ever, this should not be the case, but
neither should there be any gasoline
leaking off.

A great many times the
connecting wires will become
slightly broken or some particle of
soot or dirt will become attached to
the wire contact, or perhaps the
wires has become dirty.

The make-and-break spark is the
most satisfactory for a farm, as
the spark is very sharp, and can be
held to withdraw all the water dur-
ing the winter months. Four batter-
ies, using the multiple series, will
do the work of two batteries, and
the engine used for the starting, after-
wards switching onto the magnetos,
and will last for six or eight months,
giving good service and economy
in the use of the engine after
each time it is used.

Always use the best grade of cyl-
inder oil; never use heavy oil in the
cylinders.—Successful Farming.

Fresh Supplies in Demand—Wher-
ever Dr. Thomas' Eclectic Oil has
been introduced into the market it
has been ordered, showing that
wherever it goes this excellent oil
impresses its power on the people.
No matter what latitude it is used
it is put up in the most portable shape
to be carried without
fear of breakage.

To Reclaim Soils
Work has been commenced on an-
other great scheme to reclaim by irri-
gation vast tracts of land in
Africa. It is believed it can be made
to add enormously to the cotton output
of the British empire. The tract which
is to be watered is known as the Giza
Plain, situated between the Blue
White Niles, below Khartoum, and con-
sist of 1,500,000 acres. The forced
flow of the two rivers is sufficient to
water the land which is to be
harnessed. The proposal is to
build two dams south of Khartoum,
one over each of the rivers. The
one over each of the rivers. The
lowest force of the water flowing into Egypt
will be controlled. At present the
Nile cannot do more than
flow, while the White Nile, flowing in
steader fashion, combines with it to
make a huge overflow. The building
of the two dams will enable the
water to be controlled and will
practically be the final harnessing
of the Nile.

Man Possibilities
Man is the crowning work of God
on earth; but, though so nobly es-
tablished, we must not forget that we
are the loftier children of a race whose
lowest point of degradation
was having no higher aspiration
than the desire for food. And we can
not understand the possible degra-
dation and moral corruption of
any man who has lost his physical
nature is rooted in all the material
characteristics that belong to his
type and link him with the animal
and intellectual element of his being than
that which unites him with them.

Agassiz.

So you want to marry my daughter?
What are your expectations?

We expect to elope if you refuse
your offer. We expect to get married
if you forgive us when we get back.
Then we expect you to make us all
allowance." —Penny Magazine.

An Intricate Story
Before my marriage I told her all
my past life. Don't you think I showed
her a wonderful courage?"

"Yes, and a still more wonderful
memory." —London Opinion.

Sunshine and Rain
There is much shower and much
sunshine in the summer, and the reaping of the
seed and the reaping of the harvest.
But the harvest is generally reaped af-
ter the sun has set.

John Bright.

She—if you don't give me that—I
want it at once, I shall go back to
mother.

He—All right. That's the "fiver."

She—What are you going to do with
it?

She—I'm going to lend it to moth-

er so she can come and see us.

An Intricate Story
Before my marriage I told her all
my past life. Don't you think I showed
her a wonderful courage?"

"Yes, and a still more wonderful
memory." —London Opinion.

Two Little Fellers were exchang-
ing one afternoon on the front steps.

"Old fellow one, "I hate to have
bedtime come. My mother wants me

to take a bath every night."

"So does mine," remarked the other
little fellow. "My father is a doctor, and ma always

gets him to chloroform me, so I never

know a thing about it until it's all
over." —Detroit Free Press.

Kindness
"Is she good to the children?"

"Very. She lets them do every-
thing their father doesn't want them
to do."

Our Motorists

The Motorist (still at the wheel, to
pedestrian, whom he has hit)—"I say,
you fellows are a bunch of rascals. You
make too much noise, you might start my
engine up again."—London Opinion.

Good cannot catch cold. When
we have Cold Cure is applied to them,
because it goes to the root and kills
the growth.

"What do you think of my new
suit?"

"I wish I was as good a salesman
as the fellow who sold it to you." —

Penny Magazine.

"Madam, do you give any of your
time for self-reflection?"

"I suppose I do. I hate to have
bedtime come. My mother wants me

to take a bath every night."

"So does mine," remarked the other
little fellow. "My father is a doctor, and ma always

gets him to chloroform me, so I never

know a thing about it until it's all
over." —Detroit Free Press.

The advantage of riches
with him who procured them,
with the heir.—Emerson.

HELD BACK BY DEADLY ANAEMIA**Thousands of Growing Girls Yearly Fall
into a Hopeless Decline**

Anæmia—the doctor's name for
the disease to be cured, healthy
woman. At all times when
when their veins should be full of
rich red blood, anæmia, creeping on
them steadily, is a symptom of spark-
ling languid and exhausted their backs ache, their
hearts palpitate, appetite
is lost, complexion and womanly brightness

is gone, and the girl becomes
a nasty, yellow, or they become
deathly white. No medicine ever
of importance has been found upon
which Dr. Williams' Pink Pills.

They build up the body anew by making
the rich red blood which gives
the health, strength, and beauty
of a young girl. There is no
greater importance than the
pink pills.

Miss Delina Armstrong, a
young girl, came to Dr. Williams

and said, "I am very ill, and
I am afraid I will die."

Dr. Williams said, "Take
one of my pink pills every day
and you will be well again."

After taking a few boxes, she
found a great improvement, and
continued to take them, and
now she is a strong, healthy girl.

Her parents are very pleased
with the result.

Blairmore, Alta., Fri. July 10, 1914

The Okotoks Observer is a new paper
which has started in that town with
A. Harding, editor.

The report of the demonstration farms
and schools of agriculture of the province
of Alberta has been received from the
provincial department of agriculture.
This report of the first year's work of the
schools is especially commendable in
every respect.

The Parcel Post

Canada has a parcel post, but our system
at present is very limited in its usefulness
compared with the service which is given by the post-offices of the United
States. The Canadian post office, as well as in many other parts of the British
Empire. Prior to the establishment of
the parcel post in the United States a
year and a half ago, those who advocated
the parcel post for Canada were met
with the objection that the immense areas
and great distances of this country would
make a service such as was given in the
older and more closely settled countries
an impossibility. The United States
government, however, has now conclusively
proved that the parcel post can be
a success in a thinly settled country as
well as in populous centres, and it is
earnestly to be hoped that our own post
office department will take advantage of
this experience and gain the same result
as the United States, which for years
had been charging exorbitant rates and giving
an inadequate, and more or less
inefficient service, have not been allowed
to stand in the way of progress, and have
had the monopoly on which they were
featuring taken from them. Our own
parcel post service at present carries
parcels weighing up to eleven pounds
only, and with very few exceptions the
charges are actually higher than those of the
express companies. In the United
States parcels weighing 30 pounds are
carried by the mails, and the rates are
much lower than the express rates. The
express companies, of course are really
airline companies under other names
and at present the railways apparently
have had much influence with the Cana-
dian Government to have the parcel post
languishing along as it is, the chief reason
being made a success by the reduction
of rates and the increase of the
weight limit. Organization, education
and agitation, however, will eventually
induce the authorities to yield to public
opinion, and the Grain Growers' associa-
tions are the proper bodies to take a
leading part in the work. —Grain Growers'

Guide.

The entrant, or in the case of the
legal representative, shall furnish to
the Minister a statutory declaration duly
made and completed according to law,
promptly after the expiration of each
year during the period that he has kept
stock upon his land, as to the numbers
he has kept thereon during such year or
period, and that they are and have been
kept during that year or period, as specified
in the statutory declaration, solely owned
by him.

The whole quarter section of land
entered for shall be enclosed by a substantial
fence to the satisfaction of the Minister.

In reference to entries that have al-
ready been made stock may be allowed
to count, in cases where the land has
been reported by the inspector as being
altogether unfit for grain growing.

So far as homesteads are concerned,
the provision in the regulations for the
reduction of the area of cultivation in
cases where the land is difficult to break
due to woods, rock, or the broken
character of the land, it being always
understood that if the settler is required
to do work equal in value to what would
have been required if he had an ordinary
prairie homestead.

The entrant, or in the case of the
legal representative, shall furnish to
the Minister a statutory declaration duly
made and completed according to law,
promptly after the expiration of each
year during the period that he has kept
stock upon his land, as to the numbers
he has kept thereon during such year or
period, and that they are and have been
kept during that year or period, as specified
in the statutory declaration, solely owned
by him.

The following, in brief, are the main
points in the regulations:

1. Upon certain homesteads, the
pre-emption patent may not be
obtained, at once, upon payment for the
land in full and showing that certain
entries have been performed.

2. The holders of pre-emptions are
relieved of interest until three years have
elapsed from the date of the pre-emption
entry.

3. No interest is chargeable now upon
any instalment in connection with either
a pre-emption or a purchased homestead
until after such instalment falls due.

4. With certain restrictions, stock
may be maintained in lieu of cultivation.

5. Under the new regulations

in regard to stock in lieu of cultivation

will not only prove a valuable resource
for those who have land not altogether
suited for cultivation, but will give an
impetus to mixed farming.

If a report from a homestead inspector
shows that a quarter section does not
contain arable land to the extent required
to obtain patent under the regulations
with respect to cultivation, authority will
be granted to the entrant to substitute
stock in lieu of breaking and seeding.

If this privilege is conferred on the
entrant, he will be required to show
when making application for patent that
he has, in the case of an ordinary home-
stead, been the sole owner during the
whole of the first year, of at least five
head of stock, during the second year of

the application for patent, at least
twenty-four head of cattle.

In the case of a pre-emption, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he

of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the
expiration of the fifth year up to the date
of the application for patent, at least
twenty-four head of cattle.

In the case of a journalized homestead
when making application for patent, the ent-
rant will be required to show, when
making application for patent, that he
has continued to own his homestead, and
that he has had upon the land, in the
fourth and fifth years of the performance
of duties, stock to the number of at least
twenty head, and from and after the

Death of Prominent British Statesman

London, July 8.—Mr. Joseph Chamberlain, one of the best known of England's public men, died last evening of prolonged illness. Members of the family today received hundreds of messages of sympathy from eminent personages of the world over.

Mr. Chamberlain was a member of parliament at the time of his death. He was seventy-eight years of age. His son, Austen Chamberlain, is also a member of parliament, and prominent in the Conservative party.

Frank Happenings

J. Foster, representing McCall Bros., was a business visitor to Frank on Tuesday.

Mrs. W. H. Hilton and Mrs. J. H. Gibson were Hillcrest visitors on Tuesday.

H. T. Lloyd, electric engineer and contractor, was in town the early part of this week.

The regular meeting of the Association of Stationary Engineers will be held on Thursday next.

Mr. Skeleford has completed the moving of the Union hotel, and is now leading up his moving material.

Several of the local members left for Calgary on Thursday evening to take part in the provincial Orange celebration.

Frank can now boast of another "8 x 8 free and easy," under the proprietorship of Warn, Graham and Smart. Competition is now high.

Mrs. Lillian Thomas, who has been enjoying a vacation at her home here, returned to Calgary on Tuesday, to resume her duties as nurse.

A grand game of basket ball was witnessed on Thursday evening on the new grounds near the church. The boys claim it the finest running court ever.

The girls will take place on Saturday evening in the old Union hall at Frank, for men only. The girls will play after the football game at Bellevue.

The story goes flying wild to the north that Mr. and Mrs. J. H. Gibson have only part of the week-end, and left a bouncing twelve-year-old girl. Father and mother are doing well.

We understand that the Sundre-Countryside Oil Co., of Frank, have sold out to the Dicastro-Schofield Co. Maynard Elzner Silas Schofield is secretary-treasurer of the new company.

A football game will take place in Bellevue on Saturday evening between Frank and Bellevue teams, for the benefit of the widows and orphans at Hillcrest. Turn out, boys, and boost hard, and be sure to buy a tag.

We are sorry to hear that Parker has unravelled his secret marriage to "Quinn" Quan, but we understand he has better in store for us, entitled "Tenting on the old camp ground." He is at present under the able tutelage of Professor Singart and Graham.

The choir of the Frank Methodist church, under the leadership of W. Simpson, performed to Hillcrest on Sunday last, and made a good account of themselves at the memorial service held in the union hall, in memory of those who lost their lives in the recent disaster.

FRASER-DUNCAN.—The marriage place of Grace Presbyterian church made a fine addition to the lack of Mr. William Gordon Fraser of Frank to Miss Jessie Duncan of Passburg. The ceremony was performed by Rev. Alexander Eddes. Mr. and Mrs. Fraser will reside in Frank.

The Sanitarium has attracted an unusually large number of guests during the past week, the following being but a few of them: A. N. Scott, Pocoahontas; H. T. Lloyd, A. C. Carpenter, J. Foster, B. McChuen, V. Mitchell and wife, Calgary; A. J. Carter, Fernele; T. A. Powell, W. W. Ingraham, E. H. Maunsell, W. H. Evans, Geo. Skelding, R. G. Campbell, Mr. and Mrs. W. M. Campbell, MacLeod, R. J. Kapple and wife, Vancouver; J. D. Hartley, wife and son, Arthur Scott and wife, Killeen, Mugmore; R. Hincks, Jas. A. Richards, Mrs. Bertie and husband, C. C. Craig, Lethbridge; O. S. Fife, Ottawa; G. S. Minty, Toronto; A. S. Tatton, Messrs. L. H. Hunter, Mr. and Mrs. G. E. Martin, Misses Mitchell, D. Thomson, Inspector Jungel, Fischer Creek; George Jackson, Dr. Helen Ryan, Miss Grace Ryan, Victoria; Mrs. Ross and children, J. Graham, Coleman; Dr. and Mrs. MacKenzie, Bellevue; F. M. Ginter and family, Roy Myers, Medicine Hat.

Local and General

The Winnipeg exhibition opens tomorrow morning.

W. A. Beebe paid a business visit to Lethbridge yesterday.

Mrs. Thorneycroft, of Calgary, is visiting her parents, Mr. and Mrs. Bourquin, here.

Mrs. Crawford, after spending a couple of weeks in Blairstown, returned to Cayley this morning.

John R. Palmer has during the examinations at the Hillcrest enquiry shown the public that he has a good grasp of the workings of oil in me.

The fourteenth annual meeting of the Canadian Associaiton for the Prevention of Tuberculosis will be held at Halifax, N.S., on Monday and Tuesday next.

One of the chief features of the enquiry at Hillcrest on Wednesday was the clever cross-examination of Inspector Arpsall by Colin MacLeod, K.C., who is representing the Hillcrest Collieries. Mr. MacLeod's examination appeared to show that the mine since the explosion was much safer than theretofore.

To receive a punch from your tenant in lieu of a month's rent is the latest, but this was perpetrated in Blairstown on Wednesday, following which the considerate (?) tenant was escorted to the mounted police barracks, where it was decided whether or not this one punch should be considered sufficient remuneration for the liability of the land-ord.

We regret to learn of the illness of George Bradley, senior, of Sentinel, who is confined to his bed with a severe attack of paralysis. Mr. Bradley was a resident of Blairstown for some time before taking up a ranch at Sentinel, previous to coming to Alberta, he lived in Bruce county, Ontario. His numerous personal friends hope for his speedy recovery.

The net result of the annual meeting of the provincial license committee is that the number of liquor licenses in the province has been reduced by 18. Edmonton loses three leases; Calgary three; Wetaskiwin two; Blackfalds one; Innisfail one; Irvine one; Pincher Creek one; Castor one; Belgrave one; Taber one; Maple Leaf one; Dunmore one; Burdett one. Four three-month leases were issued in Lethbridge, a 60 day license in Calgary, a 40 day license in Frank, a three-months license in Didsbury.

The following are a few of the newest visitors to the Metropole during the week: R. Hincks, W. F. Crooke, B. Lerkey, R. J. Morgan, C. J. Ingram, John R. Reilly, C. McLean, S. C. Ratman, Thomas Marjoribanks, Lethbridge; D. P. Barney, Winnipeg; F. McQueen, Toronto; Arthur Hart, Newmarket; T. E. Daughey, O. Davis, N. Barker, F. J. Laskins, E. T. Schaefer, D. McCullagh, G. Saderbach, C. H. Powell, H. A. Walla, C. Galyer, W. H. and Mrs. Hannan, Cowley; Inspector Jungel, Mr. and Mrs. H. D. Gerry, Pircher Creek; E. R. J. Forster, J. F. Fleck, Sparwood; B. Weston, Revelstoke; W. Grant, Olds; A. E. Ressor, Medicine Hat; N. E. Carr, Montreal.

CAUSES OF STOMACH TROUBLE.—Sedentary habits, lack of out door exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, overeating, taking of food and drink not suited to your age and condition. Correct posture and take Glibenham's Tablets, and you will soon be well again. For sale by all dealers.

Large tract of good valley farmland land has been opened for free settlement in Oregon. Over 100,000 acres in all, mostly arable, rich soil and does not require irrigation. The first crop of grain, fruit and garden truck will be harvested in 1905. Good water supply, and a plan of several sections of exceptional value. Write to Mr. J. H. Taylor, Oregon City, Oregon. Three persons U. S. Taylor and Zimmerman. An opportunity to get rich. Taylor and Zimmerman, 1000 feet above sea level, free homestead near town and market.

Widows or dependents upon the victims of the Hillcrest explosion, who have homesteads which are not yet proved up, are requested to send all particulars to Robert E. Campbell, member for Rocky Mountain, who will do all in his power to help them. Address—

R. E. CAMPBELL, M.P.P.
925 15th Ave. West,
Calgary, Alberta,
or see L. H. Putman, Blairstown.

The Hero of the Frozen South
The Hero of the year at the Royal Academy, England, is said to be titled entitled "A Very Gallant Gentleman."

This is the Captain Oates memorial plinth which J. G. Dolman for the Cavalry Club of which the gallant officer—who perished with Captain Scott in the Frozen South—was a member. The statue is six feet high and illustrates the supreme moment of Captain Oates' tragic act of heroism.

Mr. Dolman gives us a vivid picture of his work. I have painted Oates moving away from the tent, which is seen dimly to the left, through the white snowdrifts, the blizzard. But, crouching almost double, one hand helping to support his crippled leg, the other stretched out to hold his rifle, he is trying to lift himself along. Between his figure and the tent there is crumpled and scattered snow, to mark where he has stumbled, and has painfully dragged himself up again.

I have tried to make the tracks in the snow follow the line of his agony, the depth of the drifts, the pale glow of color is visible, suggesting warmth inside. This contrast deepens the poignancy of the situation and reflects the grey color of the wilderness of snow.

"I made very careful preparations before I painted the picture. I measured the distance from the tent to the house, and the height of the snowdrifts, and the members of the expedition who returned were very helpful, allowing me to sit with them and watch what was done. I have studied blizzard effects carefully, both here and in America, and have tried to make my picture as simply as I possibly could; I have tried to keep it in harmony with the thing itself."

Not Spiritual Minded.

The new minister was making his first calls, and when he reached the home of the Peepys he said to Mrs. Peepy: "Well, I don't think I have seen Mr. Peepy at church yet, have I, Sister Peepy?"

"Well, no, you isn't," replied Sister Peepy. "The Peepys have been to lay abed late of a Sunday, and time he gets up an' has his breakfast and gets through the Sun news, he's done too late for church. For see, Peepy is a real spiritual-minded man now—ah—at least not the same as I am."

William (who has been persuaded to contribute to our annual concert)—"Can't 'tinkle 'Varmur's Boy?" mused.

Sister's Daughter—Have you brought your music?"

William—"Music! I don't sing by music: I sings by hearsay."—London Opinion.

LITTLE MOTHERS

CUTICURA SOAP

And Cuticura Ointment. They afford a pure, sweet and economical method of preserving, purifying and beautifying the skin, scalp and hair. For distressing eczemas, rashes, itchings, inflammations and chafings of infants, children and adults Cuticura Soap and Cuticura Ointment are most effective.

Cuticura Soap and Ointment are sold throughout the world. A liberal sample of each, with 22-page catalog, will be sent free on application. Address Foster Drug & Chem. Co., Dept. T.M., Boston, U.S.A.

W. M. U. 1004

Unchanged.

There is a grave professor in a certain college for young ladies whom one would never suspect of such levity as the indulgence in a joke unless one were to catch the twinkle that sometimes comes into his eye.

Not long ago he was addressing his class when he suddenly checked himself.

"And in one respect, young ladies," he said, "you are still like the ancient."

"And what respect is that, professor?" one of the class ventured.

"The judgment of Paris means a great deal to you," he gravely explained.—Detroit Free Press.

Dubious Deduction.

"I have been expecting her for some time," declared Mr. Dubbe, "and she is."

"There is who?" asked his wife.

"The woman train," answered Mr. Dubbe, "and she is a bore. Observe how she stretches along with her shoulders hunched, her figure projecting and her hands thrust into the pockets of some man's discarded overcoat. Yes, and look at her!"

"She is one of our sweetest society girls," in the latest figure, said Mr. Dubbe.

Inseparable.

"Mother," said little Mabel, "do miles sometimes go to heaven?"

"Of course, dear," her mother replied.

"Do cannibals?"

"No, I am afraid they don't."

"But, mother," the little girl insisted, "if a cannibal eats a missionary he'll have to go, won't he?"—New York Post.

What He Noticed.

An Inspector examining a class in grammar, wrote a sentence on the blackboard, "I spent a week-end," and asked anything peculiar in it. After a short silence a boy exclaimed:

"Yes, sir; the bad writing."—St. Louis Post-Dispatch.

A Stinger.

Mrs. Nagger—Permit me to recall, it was on a railway train that we first met, and—

Mr. Nagger—Yes, but it's too late now for me to sue the company for damages—Exodus.

Anuspects.

She—but don't you think that everybody should learn to swim?

"Yes—certainly not! What would you think of a fish that insisted on trying to learn to walk on dry land?"—Boston Transcript.

Rubbing It In.

"My dear," remarked Jones, who had just finished reading a book on "The Wonders of Nature," "this really is a remarkable work. Nature is marvelled at. Stand back. When I read a work like this it makes me want to rub it in."

"Three o'clock," he replied, "and we are at eleven."

"Ah," commented the native, "I've often heard that parliament meets during the night so as not to be disturbed by the press, but it must meet at a quarter to twelve holding court to be sat at eleven o'clock in the morning."

Teaching Him a Lesson.

"Is it true that you stopped your son's allowance when he married that pretty blonde girl?"

"Yes, I told him he needn't expect to get an allowance from me."

"How does he manage to live?"

"I have increased his mother's alimony about \$10,000 a year"—Chicago Record-Herald.

Why Not?

Mrs. Flattie—I see that twenty-one years old is considered as playboy brakemen and ten as baggagewomen in the United States.

Mr. Flattie—Well, I see no reason why women shouldn't brake and smash things as well as men.—Yonkers Statesman.

The Difference.

"In these days, when a man thinks he has won his ladylove it is a case of pride or miss."

"In the primitive times when a man knocked down the girl he fancied it was a case of hit and miss."—Baltimore American.

Wild Guessing.

"I see that the odious Mrs. Bartlett is sending out invitations for a 'dejeuner dance'."

"Indeed! And what's a 'dejeuner'?"

"Some new kind of tango, I suppose,"—Cheerful Plain Dealer.

He Knew There Was.

"There's some good stuff in Lemuel," Lemuel's Roommate—should say there was. He just finished eating a pound of fudge that Amaranth sent up to me.—Cornell Widow.

Auricular Demonstration.

"Did you water the ferns in the drawing room, Norka?"

"Yes, num. Don't ye hear the water dripping on the carpet?"—Boston Transcript.

Height of Credulity?

"You say he is credulous?"

"Very. He honestly thinks he can judge a summer resort by the picture on the postcard?"—Washington Star.

Not a Scuttle.

"A little more grape," ordered the general.

"Sorry, general," responded the orderly, "but the wine is all gone."—Kansas City Journal.

No Swimmers.

"Edna she sink in the social sea?"

Winifred—Yes; she went beyond her depth.—Judas.

The Undistracted Critic

Last autumn, in a village inn parlor in Central New England, I picked up a work of fiction and found, carefully bound in the back pocket, a copy of one of the blank fly leaves of the book, a list of the things which had, presumably, most impressed its owner, in reading the story. The list ran as follows:

"Page 114. line 3, split infinitive."

"Page 263, line 17, should be whom."

"Page 391, line 12, is this construction allowable?"

"Great heavens!" I remarked as I laid the volume reverently back on the centre table. The unshaven critic was regarding the book in the unknown commentator.

"What pose, what self-possession, what splendid insulated steadfastness of purpose! How perfectly he has屏息ed and undistracted amid a spectrum of fondering faiths and wundering systems with a tremors, micro-mite and acutusness hanger upon split infinitive!"—Life.

The Deceased Wife's Sister

The law against marrying a deceased wife's sister, which contains a definite disqualification in England, is one which, grown out of an ancient tribal law forbidding a father to sell more than one daughter to the same man, and which, to cure the emergent evil of polygamy and when for just 21 shillings the sum of the present money a man might demand his wife or kill her if she would not go to him.

Out comes the pain every time you rub out Nervine you can remember to science. Worth its weight in gold to every family in the land, and used to cure the emergent evil of polygamy and when for just 21 shillings the sum of the present money a man might demand his wife or kill her if she would not go to him.

With reliable old Nervine you can rub out the pain of Rheumatism, Sciatica, Lumbar, or Neuralgia—but it away so completely that you feel like a new person.

It matters not how deeply seated the pain is, or how long you have had it.

Nervine is highly concentrated—about five times stronger than the ordinary white ammonia. Nervine acts deeply—and gets right at the core of the pain at once—draws out the lameness, takes away the stiffness—makes the joints that hurt you so much.

Out goes the pain every time you rub out Nervine which contains a definite disqualification in England.

With reliable old Nervine you can remember to science. Worth its weight in gold to every family in the land, and used to cure the emergent evil of polygamy and when for just 21 shillings the sum of the present money a man might demand his wife or kill her if she would not go to him.

Local and General

H. H. Tate and H. Granger left
on a few days fishing trip on Wed-
nesday.

A. Bower returned from South
Fork on Monday morning with
sixty five fish.

Mrs. Kidd's maternity home,
Box 65, Phone 181. Wedding cakes
decorated.

The regular meeting of the coun-
cil will take place on Monday
night next.

HORN-On Monday morning,
July the 6th, to Mr. and Mrs. C.
Diacastro, a son.

F. Ciccarelli left for Calgary and
Winnipeg on Wednesday, and will
be absent a few days.

Michel Rose returned from an
extended visit to Calgary and Ed-
monton on Sunday.

W. Roberts, of the local custom
house, is relieving the sub-collector
at Swift Current, Sask.

Willie Doubt is busy rebuilding
automobiles, and has no less than
two on the stocks at present.

It is expected that the commis-
sion of enquiry into the Hillcrest
disaster will conclude this week.

A valuable horse belonging to L.
C. Galea was hit and killed by a
freight train on Monday morning.

Mrs. E. C. Keith, Teacher of
Music and Blairstown. 75c per
hour each. Eighth Ave. North.

Const. Painter, of the R.N.W.M.
P., is relieving Const. Hancock who
is doing special duty at the Hill-
crest enquiry.

H. E. Lyon returned on Sunday
from Spokane, where he had been
in the interests of the Foothills Oil
and Fuel Co.

H. H. Tate, manager of the
Royal bank of Canada, returned
from a holiday spent at Lake
Louise and vicinity.

John Kraschuk, who ploughed
some months ago, paid the death
penalty yesterday.

Wellington L. O. L. attended
divine service at Central Baptist
church on Sunday evening last,
when an able sermon was delivered
by Rev. Bro. J. F. Hunter.

I have for sale five head of Good
Milch Cows, freshly calved. These
cows can be seen at my ranch, 300
yards from Cowley station. Prices
from \$80 to \$100 per head.

C. H. Pottet, Cowley.

Constable E. T. Schoeppe, who
figured so prominently in the cap-
ture of Sokoloff, one of the desper-
adoes who murdered Paymaster
Wilson at Exshaw, was in town on
Wednesday on a brief visit.

We understand that E. Morino
has parties in view who will take
hold of the local brewery for the
purpose of putting same in opera-
tion. No doubt through Mr.
Morino's efforts the brewery will at
last put beer on the market. Here's
success to you, Joe!

J. H. Kappelle, barrister, of Van-
couver, with his wife and child, are
registered at the Senatorium hotel.
Mr. Kappelle, together with L. H.
Putnam, is representing the Royal
Italian Consul of Montreal at the
enquiry being held at Hillcrest.

The incline from the Green Hill
mine is about completed, and work
on the tipples will begin at once.
It is rumored that the C.P.R. will
lay the spur-line from their main
line to the tipples, and that every-
thing will be in readiness for ship-
ping operations by August 20th.

The Blairmore council has been
designated as a "bunch of grafters"
by an individual who has never
done the town a good turn for the
many blessings it has bestowed
upon him. If the councillors are
professional grafters, it is too bad
that their valuable time and talents
should be wasted upon soil which
affords no better opportunity for
graft than Blairmore's.

The decision of the commission
appointed to investigate the En-
press of Ireland creek, will be
handed out Saturday at Quebec.

A WORD TO THE PUBLIC

Where are you served best and most pleas-
ingly? The answer is almost sure to be—
"Where we are invited and made welcome.
At those shops which prize our custom
enough to seek it, and who ask for it every
week through the medium of advertisements
in the BLAIRMORE ENTERPRISE."

Shop Where You Are Invited to Shop

Bellevue Happenings

John Jackson is building a house
at Maple Leaf.

John Tucker was in Calgary this
week on business.

Steve Ross has accepted a position
at the Bellevue mine.

Joe Harrington, of the bank staff,
has taken up new lodgings.

Bob Lovitt and Jim Burke are
at Hillcrest attending the inquiry.

Superintendent Williams has
moved his family down from Blairstown
to a sharp exchange and heavy in-
fighting in which Ritchie generally
got the upper hand.

Several times the American was cautions for
holding in the clinches. In the eighth round
Ritchie recovered his liveliness, and in this and
the next two rounds were some sharp exchanges and heavy in-
fighting in which Ritchie generally
got the upper hand.

Mrs. Fred Wolstenholme returned
Friday from a business visit to Cal-
gary.

Leslie Tomlinson was a Calgary
visitor this week, taking in the sights.

Arnold Varley left Monday for
Vancouver, where he will reside in
future.

Frank Roseley, who met with a
slight accident this week, is improv-
ing.

The Maple Leaf hotel closed its
doors this week, because of slack
business.

The Bellevue band attended the
memorial service held at Hillcrest
on Sunday afternoon last.

Mr. Gray, of the Union bank
at Blairmore, has taken up a
position in the bank here.

Wallace Raynor, who has been
visiting his brother at Medicine
Hat, returned on Friday.

A large number of Bellevueites
attended the Owl's celebration at
Coleman on Dominion Day.

Saturday was pay-day at
the Bellevue mine, and things are
pretty brisk as a consequence.

Mr. and Mrs. S. Humble were
fishing at South Fork on Dominion
Day, and brought home some fine
fish.

T. M. Burnett took out a fishing
party on Wednesday and reported
good sport. They "Forded" the
water yesterday.

Mr. and Mrs. George Brown leave
for Halifax, N. S., this week, where
Mr. Brown has secured a position.
Mr. Brown has been drummer with
the local band since his arrival
here.

Bellevue can at last boast of a
post office. It is a building to itself,
fully equipped and very well ap-
pointed. Now the holders of boxes
can get their mail at nearly any
hour of the day or night.

THE BEST MEDICINE IN THE WORLD

My little girl has dysentery very
bad, I thought she would die.
Chamberlain's Colic, Cholera and
Diarrhoea Remedy cured her, and I
can truthfully say that I think it is
the best medicine in the world;
writes Mrs. William Orvin, Clare,
Mich. For sale by all dealers.

Cyr & Smith's team ran away a
few days since and caused quite a
messup. Of the three occupants
of the rig, young Knowes sustained
a broken arm, while Willie Crawford
received internal injuries.

Bellevue will soon be a dry town,
only one hotel peddling the wet
goods at the present time. The
Southern hotel is closed indefinitely,
and the roomers were this week
given notice to move out.

Mr. and Mrs. George Bateman,
who intend leaving for their home
in Yorkshire, England, in a few
days, have been bidding their
friends at Coleman good-bye. Mr.
and Mrs. Bateman take with them
the best wishes of the people of
Bellevue.

A GOOD INVESTMENT

W. D. Magill, a well known merchant
of Whiteside, Wis., bought
a lot of Chamberlain's medicine so
as to be able to supply their
customers. After receiving them he
was himself taken sick and saw a
small bottle of Chamberlain's
Colic, Cholera and Diarrhoea Remedy
was worth more to him than the cost
of his entire stock in those medicines,
For sale by all dealers.

Special reduced rates are being
offered by the C.P.R. for the L.O.A.
excursion to Calgary on Monday.

**Welsh Wins
Lightweight Title**

Freddie Welsh, lightweight
champion of England, on Tuesday
defeated Willie Ritchie, the American
champion, on points in the
20-round fight for the lightweight
championship of the world at Lon-
don, England.

In the opening rounds Welsh
scored more points than Ritchie.
In the fifth round, however, Ritchie
forced the fighting and in this and
the next two rounds were some
sharp exchanges and heavy in-
fighting in which Ritchie generally
got the upper hand.

In the thirteenth round Ritchie
had it all his own way, landing
some heavy blows and forcing the
fighting all through, while Welsh
appeared to be weakening. The
fourteenth was also all Ritchie's
and the fighting was very fast.
Then both slowed up, but in the
sixteenth round there was a lot of
jabbing and Welsh was boxing
splendidly, Ritchie meantime try-
ing for a knockout. In the seventh
Ritchie got home a number of
sharp body blows and forced the
fighting throughout. Welsh was
very clever in covering. Welsh
obtained some more points in the
eighteenth, which was a fast round
and left Ritchie with a bleeding
right eye. The nineteenth was even,
with Ritchie forcing the fighting.
The final round was the swiftest of
the whole fight, and Welsh had the
better of it.

Of the twenty rounds, ten were
undoubtedly Welsh's; five went to
Ritchie and the other five were
about even.

**Hindus Will Be
Deported At Once**

Vancouver, B.C., July 6.—Despite an ultimatum delivered by
the Japanese Const. Hori to the
Hindus on the Komagata Maru
this morning, they refused to per-
mit the five "traitors" whom they
had been held last week to get back on
the vessel. The efforts of the con-
sul were directed towards getting the
ship back into the control of
Captain Yamamoto. It was
threatened at one stage of the con-
ference on the boat that a vessel
would be moored alongside the
Maru and a hot jet of steam would be
blown on the Hindus to prevent
them from interfering with the
Japanese sailors so that the latter
could get the gang plank down.

Two or three times today the
Hindus on the vessel created a
shout of noise, one time in particu-
lar when the uniformed Hoy Scouts
went by on the Princess Charlotte
on their way to Victoria. The
Hindus evidently thought the
scouts had come to take the
Maru.

The Hindus evidently thought the
scouts had come to take the
Maru.

Now that the court of appeal has
upheld the order-in-council in re-
gard to the deportation of Munshi
Singh, the board of enquiry can go
ahead with its hearings and the
deportation of all of the remain-
ing 352 Hindus on board the
Komagata Maru, who fall within
the scope of the orders-in-council.
It is believed that each of the Hin-
du fall within the one or other of
the clauses aimed at them by the
order-in-council which the appeal
court has upheld, namely:

1.—That he does not possess, on
entering Canada, a sum of \$200 in
his own right.

2.—That he has come to Canada
otherwise than by a continuous
journey from his native land; and

3.—That he is an unskilled la-
borer.

With the validity of the orders-
in-council upheld, the board of
enquiry may go ahead, take evi-
dence and order deportation.

The question of further appeal
proceedings is one to be considered,
but from inside information it is
very unlikely that the Hindus will
apply.

Hillcrest Lodge, No. 26, meets in their
Hall, 80 Victoria St., every Tuesday at

SUSPENDING CURE OF STOMACH TROUBLE

When you have trouble with your
stomach or chronic constipation, don't
hesitate to call on us.

For a month past I have been troubled with my
stomach. Everything I eat upset
it terribly. One of Chamberlain's
advertising booklets came to me.

After reading a few of the letters
from people who had been cured
by Chamberlain's Tablets, I decided to
try them. I have taken nearly
three fourths of a package of them
and can now eat almost everything
that I want. For sale by all dealers.

List of Promotions

At Blairmore School

The following is the list of promotions
for the term ending June 30, 1914.

Promoted to Grade X.—Peter
Montebello, Willie Patterson, Margaret
Patterson, Leah Currie.
